Product Overview

Creamy color glides on in one smooth stroke. Long-wearing, crease- and fade-resistant, too. Ophthalmologist-tested for even the most sensitive eyes and contact lens wearers. Mirror compact comes with a sponge-tip applicator. How to use: Use sponge-tip applicator to sweep shadow across entire lid, lashline to brow bone. Create interesting dimension by blending and layering multiple shades. All About Shadows singles can be used as an accent shade in the crease, as a liner, or to highlight just under the brow bone. For a more detailed application, choose specialists from Clinique's Makeup Brush Collection. Remove with your favorite Clinique makeup remover. Tip: Light shades look dramatic on deeper skin, dark shades look more natural. Dark shades look more dramatic on fairer skin; light ones look more natural. Matte finish shadows give the lids and wrinkles a softer, smoother look. A hint of soft shimmer shadow dabbed into the center of lids adds a pop of brightness. Super shimmer shadows act as highlighting shades to bring out brow bones and inner corners of eyes.
