

EDI Service Providers

AAFES does not require the use of or recommend a specific EDI provider to trade EDI documents. We are able to trade documents directly with your company via AS1 or AS2 provided that your company has this capability. You can also use one of the following EDI providers. AAFES will not pay for any VAN or EDI provider fees of any kind, since we do offer direct AS1 and AS2 connectivity. All costs incurred by using a VAN or EDI provider will be paid by the vendor/supplier. The following is a list of EDI service providers that we are aware of:

*^L **1 EDI Source**

Tina McElroy
