

Generac Power Systems Re-Announces Recall Of Portable Generators Due Finger Amputation

Recall Date: 10 November 2022

Description: CPSC Re-announces recall of Generac Portable Generators due to finger amputation and crushing injury. For a complete list of affected products, please visit the [CPSC website](#).

The following items were sold at The Exchange:

Product Description	UPC	Image
Portable Generator GP6500	696471075816	
Portable Generator GP8000E	696471074567	
Portable Generator GP6500	696471075137	

Hazard: An unlocked handle can pinch consumers' fingers against the generator frame when the generator is moved posing finger amputation and crushing hazards.

Remedy: Consumers should immediately stop using the recalled portable generators unless the locking pin has been inserted to secure the handle in place before and after moving the generator. Contact Generac for a free repair kit consisting of a set of spacers to move the handle away from the frame, eliminating the pinch point. Customers who had responded to the original recall will automatically be sent a new kit.

Incidents/Injuries: To date, a total of 37 reports of injuries, 24 resulting in finger amputations and 5 in finger crushing.

Sold at: Worldwide Exchanges and other retailers from June 2013 through June 2021.

Consumer Contact: Consumers may contact Generac Power Systems Phone: 844-242-3493 or visit Generac.com/handlespacer.

Manufacturer: Generac Power Systems Inc
