

19-002 – EXPANSION - QA PRODUCT RECALL - Hill's Pet Nutrition Expands Voluntary Recall of Select Canned Dog Food for Elevated Vitamin D

Date: 25 MAR 2019

Recall: # 19-002

Scope: WORLDWIDE RETAIL FACILITIES

Hill's Pet Nutrition is expanding its recall of select canned dog food due to excessive levels of vitamin D. This recall expansion was caused by the same vitamin premix received from a U.S. supplier that was the source of the January 31, 2019, recall.

Hazard: Vitamin D, when consumed at very high levels, can lead to serious health issues in dogs including renal dysfunction. Pet parents with dogs who have consumed any of the products listed and are exhibiting any of these signs should contact their veterinarian. In most cases, complete recovery is expected after discontinuation.

Incidents/Injuries: Hill's Pet Nutrition learned of the potential for elevated vitamin D levels in some of our canned dog foods after receiving a complaint in the United States about a dog exhibiting signs of elevated vitamin D levels. Hill's has received a limited number of complaints of pet illness related to some of these products.

Description: This expansion recall is limited exclusively to the products and date codes listed below. The Exchange only sold the item noted with the astrisk (*).
