

19-020 QA PRODUCT RECALL – EXCHANGE SELECT RANITIDINE BY PERRIGO DUE TO POSSIBLE CONTAMINATION WITH NDMA

Date: 23 October 2019

Recall: 19-020

Scope: WORLDWIDE RETAIL FACILITIES

Description: A voluntary recall for Ranitidine products has been issued due to possible contamination with a nitrosamine impurity called N-nitrosodimethylamine (NDMA).

The following product is affected.

UPC	ITEM DESCRIPTION
614299405738	Ranitidine 150mg Tablets

Hazard: Ranitidine materials, confirmed by limited, initial testing results reveal the potential for the presence of the possible contamination with a nitrosamine impurity called N-nitrosodimethylamine (NDMA). NDMA is considered a possible carcinogen by the US Environmental Protection Agency.

Remedy: Customers who purchased the product should discontinue use and reach out to their doctors or pharmacists with questions about treatment going forward. Product may be returned to the store where it was purchased for a full refund.

Incidents/Injuries: To date, no adverse events have been reported.

Sold at: Exchange facilities and ecommerce.

Consumer Contact: Customers who have additional questions or concerns should contact Perrigo at 888-817-2180.

Manufacturer(s): Perrigo
