Brick 10000746: Cleaners Other

Definition

Includes any products that can be described/observed as Cleaners, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Cleaners, Fresheners and Deodorisers, Laundry products, Shoe Cleaning products and Surface Care products.

Brick 10000698: Cleaners Variety Packs

Definition

Includes any products that can be described/observed as two or more distinct Cleaners products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Cleaners class.

Includes products such as Bathroom Cleaners and Mildew Removers sold together.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as Mildew Removers and Insect Repellents variety packs.

Brick 10000398: Cleaning Accessories

Definition

Includes any products that can be described/observed as an implement or device specifically designed to facilitate or enhance the performance of cleaning and laundry.

The products include Buckets, Laundry Line, Clothes Pegs, Laundry Bags and Containers.

Excludes products such as Mops, Dusters, Squeegees and other household cleaning aids.

Target Use/Application (20001709)

Includes products such as Mildew Removers and Insect Repellents variety packs.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as Starch and Laundry Detergents variety packs and Bathroom Cleaner with Pot Pourri variety packs.

Brick 10006215: Dispensers for Cleaning/Hygiene Products

Definition

Indicates any products that can be described as dispensing hygiene products in away from home locations.
 Typical away from home locations include offices, factories, hospitals, schools, restaurants, transport terminals, petrol stations and hotels.
 Typically includes hand towel dispensers, toilet roll dispensers, soap dispensers found in the washroom and napkin dispensers found in restaurants and cafeterias.
 The product dispenses and protects hygiene products. Normally wall mounted but also available for table tops. Products tend to be maintained and refilled by cleaning staff. Hygiene products dispensed include: Napkins, hand towels, toilet paper, soap, hand creams, alcohol, air freshener, toilet seat cleaner, toilet seat covers, facial tissues, wipers, cloths, rolls, wet wipes

Excludes: coin operated vending machines typically used for food and drinks.
