

Brick 10001964: Dishwashers

Definition

Includes any products that may be described/observed as an electronic appliance designed to wash dishes.

Includes products such as built-in, built-under and countertop Dishwashers.

Excludes products such as Clothes Washers.

Installation Type (20001353)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify how/where the product is installed.

Attribute Values

BUILT-IN (30007757)

COUNTERTOP (30010514)

UNCLASSIFIED (30002515)

BUILT-UNDER (30009214)

FREESTANDING (30009198)

UNIDENTIFIED (30002518)

Size/Width (20002698)

Attribute Definition

Indicates with reference to the product branding, labelling or packaging, the descriptive term that is used by the manufacturer to identify the size of the product in terms of width.

Attribute Values

45 CM (30009233)

60 CM (30009234)

Brick 10001965:
Kitchen Washing Appliances Other

Definition

Includes any products that may be described/observed as a Kitchen Washing Appliances product, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Kitchen Washing Appliances products.

Brick 10001966:
Kitchen Washing Appliances Replacement Parts/Accessories

Definition

Includes any products that may be described/observed as replacement parts for Kitchen Washing Appliances.
Excludes products such as complete Kitchen Washing Appliances products.

Type of Replacement Part/Accessory (20001523)

Attribute Definition

Indicates with reference to the product branding, labelling or packaging, the descriptive term that is used by the manufacturer to identify the type of replacement part/accessory.

Attribute Values

DISHWASHER TRAY

Brick 10005322:

Cooker Hoods

Definition

Includes any products that may be described/observed as a device that is placed above the cooker for the purpose of reducing cooking odours. These products are available in a range of designs with differing functionality.

Excludes products such as exhaust/window fans as well as all portable air controlling appliances

If with Built-In Light (20002285)

Attribute Definition

Indicate, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product has the additional functionality of a built-in light.

Attribute Values

NO (30002960)

UNCLASSIFIED (30002515)

YES (30002654)

Brick 10001951: Hobs/Cooktops

Definition

Includes any products that may be described/observed as a set of gas rings, electric rings or electric plates, on which food is warmed, boiled or fried.

Includes products such as Gas Hobs and Electric Hobs.

Excludes products such as Ovens and Freestanding Hot-Plates.

Cooktop Configuration (20001538)

Attribute Definition

Indicates with reference to the product branding, labelling or packaging, the descriptive term that is used by the manufacturer to identify the configuration of a cooktop.

Attribute Values

Brick 10005690: Chocolate Fountains (Powered)

Definition

Includes any products that may be described/observed as a device for serving chocolate. Chocolate Fountains comprise multiple tiers over a containerised base. Chocolate is melted by heat from below, then vertically transported to the top of the fountain by a corkscrew auger. Once at the top the chocolate flows down the sides of the structure allowing the user to dip foodstuff into it and this pattern is repeated.

Includes products such as Plastic Chocolate Fountains as well as Metal Chocolate Fountains.

Excludes products such as Fondues, Tajines and Warming Trays.

Type of Material (20000794)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of material from which the product is made.

Brick 10002022:

Food/Beverage Appliances Variety Packs

Definition

Includes any products that may be described/observed as two or more distinct Food/Beverage Preparation Appliances products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Food/Beverage Preparation Appliances class.

Includes products such as Ice Cream Makers sold with Yogurt Makers.

Items received free with purchase should be removed from the classification decision-making process.

Excludes products such as Kettles sold with Toasters.

Brick 10002020:

Food/Beverage Preparation Appliances Other

Definition

Includes any products that may be described/observed as a Food Preparation Appliances product, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Food Preparation Appliances products.

Brick 10002021:

Food/Beverage Preparation Appliances Replacement Parts/Accessories

Definition

Includes any products that may be described/observed as replacement parts for Food Preparation Appliances.
Excludes products such as complete Food Preparation Appliances products.

Type of Food/Beverage Preparation Appliances Replacement Parts/Accessories (20002707)

Attribute Definition

Brick 10005868:
Party Drink Fountains (Powered)

Definition

Includes any products that can be described/observed as a decorative punch bowl cum party fountain, which holds a party beverage that is pumped from the bottom bowl to the top where it cascades downward in a waterfall effect from one tier to the next. The bottom bowl may have beverage cups attached and will most probably be illuminated to enhance the fountain effect.

Excludes chocolate fountains.

Brick 10006218:
Soy/Rice Milk Maker

Definition

Includes any products that may be described/observed as an electrical appliance designed to make fresh nut, bean, seed and rice milks.

Excludes products such as Yogurt Makers and Ice-Cream Makers.

Brick 10002003: Vacuum Sealers (Powered)

Definition

Includes any products that may be described/observed as a powered appliance, which dispenses, cuts and vacuum seals plastic bags for the purpose of preserving food. These products may operate automatically or be controlled with a manual override.

Includes products such as freestanding and under-counter Vacuum Sealers.

Excludes products such as non-powered vacuum sealers and vacuum-seal bags.

Brick 10001991: Cooking Appliances Variety Packs

Definition

Includes any products that may be described/observed as two or more distinct Cooking Appliances products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Cooking Appliances class.

Includes products such as Toasters sold with Toasted Sandwich Makers.

Items received free with purchase should be removed from the classification decision-making process.

Excludes products such as Kettles sold with Toasters.

Brick 10005365:
Cooking Timers (Powered)

Definition

Includes any products that may be described/observed as a timing device used to warn the user, through an integrated alarm, when a recipe has been cooked for the required period of time. These products are available with additional functionalities such as thermometer. *Excludes products such as electrical timers associated with lighting and heating products.*

Brick 10001981: Deep Fryers

Definition

Includes any products that may be described/observed as an appliance designed to heat fat to a high temperature, into which food is lowered to be cooked.

Excludes products such as Frying Pans and Cookers.

Type of Material (20000794)

Attribute Definition
