

AAFES Global Data Synchronization Program

For Almost 115 Years, We've Been There

From Sutlers' tents, to frontier stores...

In 2008 \$ 274 Million of AAFES' earnings were returned to the services MWR. (Morale, Recreation and Welfare)

Korea, Vietnam two world wars... and today's challenges.

Global Data Synchronization Network Overview

What is the GDSN?

- Global Data Synchronization Network® (GDSN®) is an automated, standards-based global environment that enables secure and continuous data synchronization
 - This allows all trading partners to have consistent item data in their systems at the same time
- Ensures that ALL parties in the supply chain are working with the same data
 - Allows for simplified change notification
 - Saves TIME and MONEY for all organizations by eliminating steps to correct inaccurate data

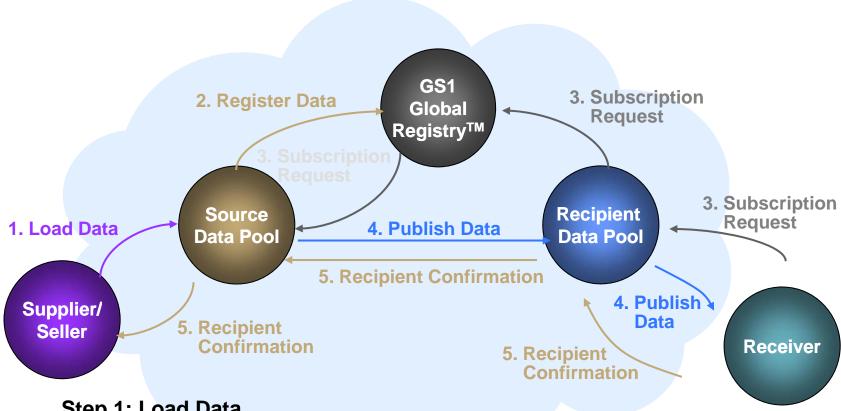

GDSN Value Proposition

Benefits of Data Synchronization:

- Faster time to market for new products
 - Increased sales to customers
- ROI through improved Data Quality
 - Efficiencies in logistics, order administration, accounting, inventory, etc.
 - One version of Item information shared and continuously updated from the manufacturer
- Benefits to Suppliers:
 - → Less manual data entry improves accuracy
 - → Standardized process with a broad number of end users as opposed to multiple proprietary solutions

Enhanced Trading Partner Relationships

How Does the GDSN Work?

Step 1: Load Data

Step 2: Register Data

Step 3: Subscription Request

Step 4: Publish Data

Step 5: Recipient Confirmation

Any Supplier/Retailer/Distributor selects one data pool as a single point of entry to the GDSN.

Snapshot of Retailers & Distributors In Production in the GDSN

Snapshot of Retailers & Distributors in the GDSN Implementation in progress

Data Pool Implementation Process

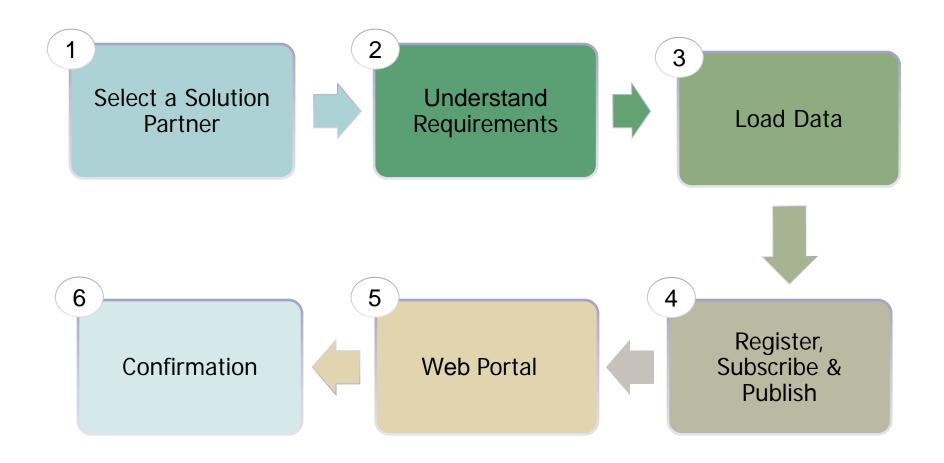

Data Sync Industry Terms/Definitions

- Data Pools An organization that can receive, communicate, validate, and manage the flow of information with the Global Registry and other data pools in the GDSN
- Data Pool Manager (DPM) The GDSN Data Pool solution provided by GXS and used by AAFES
- **Data Sync** Automated exchange of product information between buyers and sellers GTIN, description, color and dimensions
- Global Data Synchronization Network (GDSN) The network comprised of all certified data pools & the GS1 Global Registry
- Global Trade Item Number (GTIN) Umbrella term used to describe all of the codes for trade items (products and services)

Data Sync Industry Terms/Definitions

- Global Location Number (GLN) -13-digit number to identify a location of a Trading Partner (Supplier and Retailer)
- Global Registry Provides validation services to ensure uniqueness of items through basic GTIN and GLN rules
- **▶ Global Standards 1** (GS1) The new name for UCC and EAN International
 - UCC announced that it has changed its name to GS1 US as of June 7, 2005
 - GS1 organizations often run country data pools

Where Do I Start? What Do I Do Next?

Step 1: Select a Solution Partner

- Hardlines and Consumable Suppliers
 - Sign up with a certified Global Data Synchronization Network® (GDSN®) Data Pool solutions provider
 - There are several certified providers available for your selection that AAFES can work with
 - AAFES partnered with 1SYNC™ and GXS as a certified solution provider (1SYNC Onboard Support provided by GXS)

Step 2: Understand Requirements

- Review AAFES' attributes to be synchronized with your business
- Attributes list is available on AAFES' W site:
 - Go to www.aafes.com/edi/
 - Select the "GDS" tab
 - Review "GDSN Attributes" and "GDSN FAQ"

Required

Must provide this attribute information

Conditional

Category-specific & depends on the attribute. If applicable, <u>it's required</u>

Optional

If available, please provide.

Step 3: Load Data

Your Solutions Provider

- Obtain toolkit/template from provider and enter product data
- Register product data with the GS1 Global Registry

Step 4: Subscribe & Publish

- Provide Information Required by AAFES for the Subscription Process
 - Complete the AAFES Supplier Data Sheet
 - Email the completed form to AAFES
- Publish Product to AAFES data via Data Pool
 - AAFES' GLN: 0614299000018
 - Only publish items that you sell to AAFES

Step 5: AAFES Web Portal

- The items published to AAFES will be available for viewing on the supplier portal.
- The GDS team member will view the items and address any discrepancies.

Step 6: Confirmation

- You will receive a Catalog Item Confirmation (CIC) notice from AAFES
 - Received through your data pool
 - One of two status codes
 - Accepted
 - Rejected

How GDS works at AAFES

Two Part Process

1. Cleanse Supplier Data

- Match existing items with supplier items
 - Stage 2 (Cleanse In-Process)
 - Dimensions and quantity
 - Stage 3 (Cleansed)
 - Cleansing complete

2. New Item Induction

Supplier sends approved new items

Doing Business with AAFES

AAFES operates more than 3,100 facilities worldwide, in more than 30 countries, five U.S. territories and 50 states. AAFES operates some 174 main stores and more than 1,300 fast-food restaurants, such as Taco Bell, Burger King, Popeyes and Cinnabon. AAFES also provides military communities with convenience, specialty stores and movie theaters on installations worldwide, including locations in Operations Enduring and Iraqi Freedom.

The AAFES MISSION has remained essentially unchanged since a Military Exchange Service was established in July 1895. AAFES is in business to serve Soldiers, Airman and their families around the world. For over 100 years, AAFES has been dedicated to adding to the quality of life of our customers and serving as partner with the Army, Air Force and the MWR Community.

AAFES Policy is to cooperate to the fullest extent with all suppliers and manufacturers while maintaining the highest ethical business standards. AAFES is a staunch supporter of diverse suppliers. Determining factors for procuring merchandise from suppliers are quality products, competitive prices, on time delivery and customer demand.

GDS Homepage:

Welcome to AAFES eBusiness...

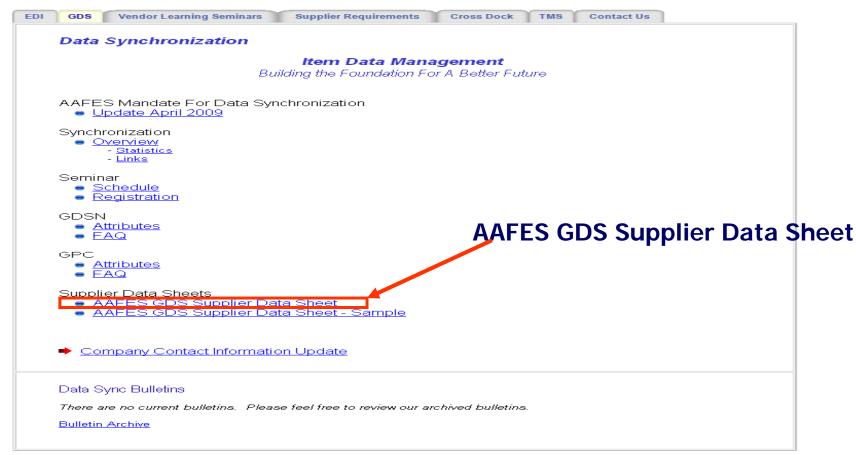

Remaining competitive in today's marketplace mandates that corporations must continue to minimize cost and speed up communication. Through the development of Electronic Data Interchange (EDI), the retail industry has set standards to produce shortened lead times giving merchants better in-stock conditions and increased sales.

To remain competitive in the retail market, the Army & Air Force Exchange Service (AAFES) is totally committed to the EDI program. Please browse our website and contact any of the EDI Staff for more information.
