

OTM GEN2 New URL Notice

Notice: Update Required for Oracle Transportation Management (OTM) URL

As of May 21, 2023, a new URL for Oracle Transportation Management (OTM) has been in effect. We have observed that many users are still using the old URL, which is currently being redirected to the new URL.

Please be aware that starting September 2024, the old OTM URL will be deprecated by Oracle and will no longer redirect to the new URL. Consequently, users attempting to access OTM via the old URL will encounter issues and may believe that OTM is down.

To ensure uninterrupted access to OTM, please update your bookmark or saved URL to the new address below. Additionally, you may need to clear your browser cache to remove the old URL from your system.

New OTM URL: <https://otmgtm-a214174.otmgtm.us-phoenix-1.ocs.oraclecloud.com>

Thank you for your prompt attention to this matter.

Regards,
