

## **Brick 10000145: Aquatic Invertebrates – Prepared/Processed (Frozen)**

### **Definition**

Includes any products that can be described/observed as any frozen edible animal, such as an insect or mollusc that lacks a backbone or spinal column and has no external shell, that lives in, on or near the water, that has gone through further manufacturing processes, such as reformed, cooked, dried and salted, however these products can also be coated, in sauce, stuffed or filled.

Specifically *excludes products that have added ingredients included such as vegetables, rice, couscous and pasta.*

*These products must be frozen to extend their consumable life.*

*Excludes products such as Aquatic Invertebrates with additional vegetables, dough or grains, Shelf Stable and Perishable Prepared and Processed Aquatic Invertebrates, all Unprepared and Unprocessed Aquatic Invertebrates.*

### **Fresh or Seawater Farmed (20000073)**

#### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging the descriptive term that is used by the product manufacturer to identify the whether the product has been fresh or sea water farmed.

#### **Attribute Values**

## Brick 10000016: Fish – Prepared/Processed (Perishable)

### Definition

Includes any products that can be described/observed as any variety of fish or a combination of fish, that has gone through further manufacturing processes, such as reformed, cooked, dried and salted, however these products can also be coated, in sauce, stuffed or filled.

*Specifically excludes products that have added ingredients included such as rice, couscous and pasta. However products may contain a small quantity of vegetables such as those in a sauce or stuffing/filling.*

*These products must be refrigerated to extend their consumable life.*

*Excludes products such as Fish with additional vegetables, dough or grains, Frozen and Shelf Stable Prepared and Processed Fish, all Unprepared and Unprocessed Fish.*

### Fish/Shellfish Cut/Shape (20000244)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the distinctive physical form in which a portion of fish or shellfish is sold ready for consumption.

#### Attribute Values

## **Brick 10000614: Seafood Variety Packs**

### **Definition**

Includes any products that can be described/observed as two or more distinct Seafood Products sold together which exist within the schema but belong to different classes, that is two or more products contained within the same pack which cross classes within the Seafood Family.

Includes products such as Shrimp and Cod variety packs and Crabsticks and Herring variety packs.

Items that are received free with purchases should be removed from the classification decision-making process.

*Excludes products such as Fish and Tartar Sauce variety packs and cockles and mussels variety packs.*

## Brick 10000256: Shellfish Prepared/Processed (Frozen)

### Definition

Includes any products that can be described/observed as an aquatic animal whose external covering consists of a shell, as in oysters, clams, lobsters and crabs, that has gone through further manufacturing processes, such as reformed, cooked, dried and salted, however these products can also be coated, in sauce, stuffed or filled.

Products include sea snails and molluscs but specifically *exclude products that have added ingredients included such as rice, couscous and pasta. However products may contain a small quantity of vegetables such as those in a sauce or stuffing/filling.*

*These products must be frozen to extend their consumable life.*

*Excludes products such as Shellfish with additional vegetables, dough or grains, Shelf Stable and Perishable Prepared and Processed Shellfish, all Unprepared and Unprocessed Shellfish.*

### Fish/Shellfish Cut/Shape (20000244)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the distinctive physical form in which a portion of fish or shellfish is sold ready for consumption.

#### Attribute Values

FILLET (30000996)	HEAD (30001246)	PIECE (30002715)	UNCLASSIFIED (30002515)
