

## Brick 10003982: Air Conditioners/Coolers – Fixed

### Definition

Includes any products that can be described/observed as a fixed or installed device for controlling, especially lowering, the temperature and humidity of an enclosed space.

*Excludes portable air conditioners, air dehumidifiers and air purifiers.*

### If with Adjustable/Rotating Louvres (20002283)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the item is equipped with adjustable and/or rotating louvres.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

### If With Integral Timer (20001638)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product has an integral timer.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

### If with Movement Sensor (20002282)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the item is equipped with movement sensors, which reduce power and energy usage when the room is unoccupied.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

**If With Remote Control (20000651)**

**Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product comes with a remote control device.

**Attribute Values**

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

**If With Thermostat (20001959)**

**Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product has a thermostat function.

**Attribute Values**

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

## Brick 10004063:

### Air Conditioning Equipment – Multifunction – Fixed

#### Definition

Includes any products that can be described/observed as a fixed or installed unit that combines the work of several appliances such as, for example, air conditioner, dehumidifier and fan.

*Excludes portable multifunction air controlling appliances.*

#### Function (20001531)

##### Attribute Definition

Indicates with reference to the product branding, labelling or packaging, the descriptive term that is used by the manufacturer to identify the intended usage of the appliance.

##### Attribute Values

## **Brick 10003984:**

### **Air Conditioning/Cooling/Ventilation Equipment Replacement Parts/Accessories**

#### **Definition**

Includes any products that can be described/observed as a replacement part or accessory for an installed air conditioning system.

Includes products such as air filters for an air conditioner or a wall bracket to hold a ventilator.

*Excludes products such as a complete air conditioning system.*

## **Brick 10003985:**

### **Air Conditioning/Cooling/Ventilation Equipment Variety Packs**

#### **Definition**

Includes any products that can be described/observed as two or more distinct air conditioning/cooling/ventilation products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Air Conditioning/Cooling/Ventilation Equipment class.

Includes products such as an air ventilation system sold with ducting and ducting boosters.

Items that are received free with purchases should be removed from the classification decision-making process.

*Excludes products such as extractor fan and stove variety packs.*

## Brick 10003990: Air Dehumidifiers – Fixed

### Definition

Includes any products that can be described/observed as a fixed or installed device for decreasing the humidity in a room.

*Excludes portable air dehumidifiers.*

### If With Integral Timer (20001638)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product has an integral timer.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

### If With Remote Control (20000651)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product comes with a remote control device.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

## Brick 10003993: Air Humidifiers – Fixed

### Definition

Includes any products that can be described/observed as a fixed or installed device for increasing the humidity or moisture in a room.

*Excludes portable air humidifiers.*

### If With Integral Timer (20001638)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product has an integral timer.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

### If With Remote Control (20000651)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product comes with a remote control device.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

## **Brick 10006274:**

### **Air Monitors**

#### **Definition**

Includes self contained, portable unit that measures the cleanliness of the air inside hoods, isolators and other cleanroom areas to ensure that neither the environment nor personnel are harmed by sources of contamination.

## Brick 10003988: Air Purifiers/Ionisers – Fixed

### Definition

Includes any products that can be described/observed as a fixed or installed device, which aims to free air from contaminants. Techniques used to purify the air include mechanical absorbents like charcoal and electrostatic charges or ionisers.

*Excludes portable air conditioners.*

### If With Integral Timer (20001638)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product has an integral timer.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

### If With Remote Control (20000651)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product comes with a remote control device.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

## **Brick 10003996: Duct Boosters**

### **Definition**

Includes any products that can be described/observed as an exhaust fan, fitted in a duct, that helps to boost the flow of air through the ventilation ducting system.

*Excludes products such as ceiling fans and room thermostats.*

## **Brick 10003997:**

### **Ducting**

#### **Definition**

Includes any products that can be described/observed as a pipe that transfers air between spaces in a building.

*Excludes products such as water and gas pipes.*

## **Brick 10003995: Fans – Ceiling**

### **Definition**

Includes any products that can be described/observed as a fan suspended from the ceiling of a room. These devices create a breeze that has a cooling effect but also help to redistribute warm air.

Includes products that are fitted with an incorporated light.

*Excludes extractor fans, window fans and portable fans.*

### **If With Incorporated Light (20002439)**

#### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product has an associated light.

#### **Attribute Values**

NO (30002960)

UNIDENTIFIED (30002518)

YES (30002654)

## Brick 10003998: Fans – Extractor

### Definition

Includes any products that can be described/observed as a built-in device containing an electric fan that helps to vent steam, smoke, gas or odours from a room or building. These products are used in small rooms where air flow is limited, such as in a bathroom or kitchen.

Includes products that have an incorporated light.

*Excludes ceiling fans, window fans, portable fans and duct boosters.*

### If With Incorporated Light (20002439)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product has an associated light.

#### Attribute Values

NO (30002960)

UNIDENTIFIED (30002518)

YES (30002654)

### If With Integral Timer (20001638)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product has an integral timer.

#### Attribute Values

NO (30002960)

UNIDENTIFIED (30002518)

YES (30002654)

## **Brick 10004064: Fans – Window/Exhaust**

### **Definition**

Includes any products that can be described/observed as a device that is built into a window frame to pump stale air out of the room or bring in fresh air from outside.

*Excludes ceiling fans, extractor and portable fans.*

### **If With Automatic Shutter (20002442)**

#### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product has an automatic closing mechanism to shut out environmental elements.

#### **Attribute Values**

NO (30002960)

UNIDENTIFIED (30002518)

YES (30002654)

**Brick 10005865:**  
**Backflow Preventer Parts/Accessories**

**Definition**

Includes products that can be described/observed as a part or accessory such as a cap, flange or valve for use specifically with a backflow prevention device.

*Excludes all other classified backflow prevention devices.*

## **Brick 10005866: Backflow Preventers**

### **Definition**

Includes any products that can be described/observed as a device used to protect water supplies from contamination or pollution. A backflow assembly has test cocks and shut-off valves so that they can be tested or examined to ensure that they are functioning properly. A backflow preventer can be manufactured to include devices such as a double check assembly, reduce pressure zone assembly, test kits and backflow prevention accessories.

*Excludes products such as a double check assembly, reduce pressure zone assembly, test kit or backflow prevention accessory without a backflow preventer.*

## **Brick 10005863: Backflow Test Kits**

### **Definition**

Includes any products that can be described/observed as a battery-powered, hand-held instrument designed to test a backflow device to ensure it is functioning correctly.

*Excludes products such as backflow preventers.*

## **Brick 10005864: Vacuum Breakers**

### **Definition**

Includes any products that can be described/observed as an attachment commonly placed on a bibcock valve or toilet or urinal flush valve, that prevents water from being siphoned backward into the public water system. This prevents contamination should the public water system's pressure drop.

*Excludes products such as backflow preventers.*

## Brick 10002624:

### Bath Lifts

#### Definition

Includes any products that can be described/observed as a device intended to assist the aged or disabled to get in and out of a bathtub. These products lower a person into the bath, and also provide support while they are bathing.

Includes products such as belt-style lifts and inflatable lifts.

*Excludes products such as tub/shower seats and support rails.*

#### Fixed Installation/Portable (20002379)

##### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product requires fixed installation or is portable.

##### Attribute Values

FIXED (30003905)

PORTABLE (30007608)

UNIDENTIFIED (30002518)

#### If Inflatable (20002039)

##### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product is inflatable.

##### Attribute Values

NO (30002960)

UNIDENTIFIED (30002518)

YES (30002654)

# Brick 10004027:

## Bath Seats

### Definition

Includes any products that can be described/observed as a seat or stool, normally made of plastic, that can be placed in the bath to enable the elderly and disabled to sit comfortably in a bath tub. The seat may be freestanding or suspended from the sides of the tub and may have the facility to swivel, thus allowing easier entry and exit from the bath.

*Excludes products such as bath lifters and bathroom chairs and stools not specifically designed for the bathtub.*

### If With Drainage Apertures (20002445)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product has apertures to allow the drainage of water.

#### Attribute Values

NO (30002960)	UNIDENTIFIED (30002518)	YES (30002654)
---------------	-------------------------	----------------

### Installation Type (20001353)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify how/where the product is installed.

#### Attribute Values

FREESTANDING (30009198)	SWIVELLING (30012434)	UNIDENTIFIED (30002518)
SUSPENDED (30012433)	UNCLASSIFIED (30002515)	

**Brick 10004032:**  
**Bath/Shower Caddies – Fixed**

**Definition**

Includes any products that can be described/observed as a container fixed to a bathroom or shower wall that helps to store and organise toiletries such as soaps, sponges, toothpastes and toothbrushes.

Includes products that are mounted with the aid of suction pads, self-adhesive strips or screw fittings.

*Excludes products such as a freestanding soap dish or cosmetics container.*

**Installation Type (20001353)**

**Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify how/where the product is installed.

**Attribute Values**

ADHESIVE BACKED

SCREW FITTINGS  
(30012438)

SUCTION PADS (30012437)  
UNCLASSIFIED (30002515)

UNIDENTIFIED (30002518)

## **Brick 10002627: Bathroom Fittings Variety Packs**

### **Definition**

Includes any products that can be described/observed as two or more distinct bathroom fittings products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Bathroom Fittings class.

Includes products such as grab bars and bath lifts sold together.

Items that are received free with purchases should be removed from the classification decision-making process.

*Excludes products such as Toilet Seat and Toilet variety packs.*

## Brick 10004028:

### Grab Bars

#### Definition

Includes any products that can be described/observed as a cylindrical bar that is mounted on a wall close to a toilet or bath tub and in the shower, to enable the elderly and disabled to rise from the toilet or bath and also help prevent slipping on a wet floor. The bars are normally made of metal and can be covered with rubber or plastic for better grip. The bars can be mounted horizontally, vertically or diagonally.

*Excludes products such as bath lifts and towel rails.*

#### **Padded/Non-padded (20002446)**

##### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is encased in rubber or a non-slip material to enable a better grip.

##### **Attribute Values**

NON-PADDED (30012436)

PADDED (30012435)

UNIDENTIFIED (30002518)

## **Brick 10006232: Hand Dryers**

### **Definition**

Includes any products that can be described/observed as a device designed to dry a users hands through the use of forced air. The device may be activated manually or automatically (sensors are used to activate the system).

### **Automatic/Manual (20002339)**

#### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is operated automatically or manually.

#### **Attribute Values**

AUTOMATIC (30006875)

MANUAL (30010064)

UNCLASSIFIED (30002515)

## **Brick 10004026: Shower Safety Strips**

### **Definition**

Includes any products that can be described/observed as a non-slip adhesive vinyl strip that can be stuck to the floor of a shower or bathtub to help prevent a person slipping on the wet surface. The product comes in a variety of colours.

*Excludes products such as rubber bath mats.*

### **White/Coloured (20002247)**

#### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is white or coloured.

#### **Attribute Values**

COLOURED (30003736)

UNIDENTIFIED (30002518)

WHITE (30002610)

# Brick 10002623: Shower Thermo Alarms

## Definition

Includes any products that can be described/observed as a device that displays the shower water temperature and emits an audible alarm when the water is either too hot or too cold. The alarm is installed between the shower unit and the shower hose. Upper and lower temperatures are programmable and a clock may also be displayed.

*Excludes products such as heating system controls.*

### If With Clock Display (20002443)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product has a clock display.

#### Attribute Values

NO (30002960)                      UNIDENTIFIED (30002518)                      YES (30002654)

## Brick 10004034: Soap/Lotion/Sanitizer Dispensers

### Definition

Includes any products that can be described/observed as a container fixed to the found near a sink in a bathroom wall attached to a wall or surface mounted or in-counter top that, when manipulated or triggered appropriately, yields soap, lotion or sanitizers.

Includes products such as manually operated pump action dispensers and power operated automatic dispensers.

*Excludes products such as freestanding liquid soap dispensers and soap dishes.*

### Manual/Automatic (20002456)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is operated manually or hands-free.

#### Attribute Values

AUTOMATIC (30006875)

MANUAL (30010064)

UNIDENTIFIED (30002518)

### Type of Mounting (20002115)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the method used to support the product.

#### Attribute Values

CUPBOARD MOUNTING  
(30011708)

FREESTANDING (30009198)

**Brick 10006402:**  
**Fireplace Fuel Storage**

**Definition**

Includes any items used as a storage container for fuel for a fireplace or hearth.

*Excludes fireplace tools and grates.*

## **Brick 10006400: Fireplace Grates**

### **Definition**

Includes items used with a fireplace or hearth which are frames of metal bars for holding fuel when burning.

*Excludes fireplace tools.*

## **Brick 10006401: Fireplace Screens**

### **Definition**

Includes any items used as a screen for a fireplace or hearth.

*Excludes fireplace tools and grates.*

## **Brick 10006399: Fireplace Tools**

### **Definition**

Includes any items used with a fireplace or hearth, such as poker, fire irons, tongs and brush.

*Excludes fireplace matches and grates.*

# Brick 10005478:

## Fireplaces/Fireplace Surrounds/Mantels

### Definition

Includes any products that can be described/observed as an appliance built into a home, consisting of a space designed to contain an open fire, generally for heating but sometimes also for cooking. A chimney or other vent allows gas and particulate exhaust to escape the building and a fireplace will normally be surrounded by decorative panels and a mantelshelf.

Includes products such as wood/coal-burning fireplaces with a chimney and gas fires installed with a gas flue, as well as installed electric fires.

*Excludes freestanding, portable fires or heaters that do not require installation.*

### Fuel Type (20002004)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of fuel that powers the product.

## **Brick 10002662: Heating Equipment Variety Packs**

### **Definition**

Includes any products that can be described/observed as two or more distinct heating equipment products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack, which cross bricks within the Heating Equipment class.

Includes products such as radiators sold with radiator valves.

Items that are received free with purchases should be removed from the classification decision-making process.

*Excludes products such as radiator and towel rail variety packs.*

## **Brick 10002653: Heating System Controls**

### **Definition**

Includes any products that can be described/observed as a mechanical or electronic device that controls a heating system within a building. It is capable of increasing comfort for personnel while delivering real cost savings through the use of a programmed time switch and thermostat. Time and temperature can be set according to building and user needs.

Includes products that have control options for heating only, ventilation only, frost protection, seven-day programming, three on/off periods per day, holiday mode and overtime mode.

*Excludes products such as the components of the heating system itself, such as pipes and the boiler.*

## **Brick 10005875: Solar Power Stations**

### **Definition**

Includes any products that can be described/observed as an easy to install kit consisting of a high power solar panel, battery, charge controller and inverter. The power station can power most appliances found in the home, office and workplace – such as TV's, stereo's, games consoles, lap top's, fax and power tools.

*Excludes all gas and electric powered heaters.*

## Brick 10005479: Tankless Water Heaters

### Definition

Includes any products that can be described/observed as a device that is fitted to a water pipe close to where the water is being used and which heats the water as the water flows through the device. The water is heated instantaneously, on demand by the user, which saves water and because it is not necessary to store the water, power is also conserved.

Includes products powered by electricity or gas.

*Excludes products such as immersion heaters and tank water heaters.*

### Power Source (20000787)

## **Brick 10003994:**

### **Plumbing/Heating Ventilation/Air Conditioning Variety Packs**

#### **Definition**

Includes any products that can be described/observed as two or more distinct Plumbing/Heating Ventilation/Air Conditioning products sold together, which exist within the schema belonging to different classes but to the same family, that is two or more products contained within the same pack which cross classes within the Plumbing/Heating Ventilation/Air Conditioning family.

Includes products such as a toilet sold with a toilet seat.

Items that are received free with purchases should be removed from the classification decision-making process.

*Excludes products such as a Shower Tray sold with a Shower Door and Water Filter Machines sold with DIY Water Filters.*

# Brick 10002609: Basin/Sink Pedestals

## Definition

Includes any products that can be described/observed as a supporting base or stand, upon which a basin/sink rests. Typically they are an open backed column which is secured to the floor and any plumbing will fit inside the open space, so it cannot be seen when looking from the front at the pedestal

Includes products such as open back marble columns and metal stands.

*Excludes products such as Basins/Sinks sold individually and Basins/Sinks and Pedestals sold in combination as a complete sink unit.*

## Type of Material (20000794)

## **Brick 10002610: Bathroom Suites**

### **Definition**

Includes any products that can be described/observed as a set of co-ordinated bathroom fixtures sold as a unit. The items making up the suite are generally of a matching design and material.

Includes products such as bath, toilet and sink suites.

*Excludes products such as sanitary ware variety packs where products are not sold as a co-ordinated unit.*

**Brick 10002600:**  
**Bathtub/Shower Doors**

**Definition**

Includes any products that can be described/observed as a door or set of doors intended to enclose a bathtub or shower to provide privacy, and contain any water spray to the bathing or showering area. These products may slide, fold or pivot to enable entry into the bathtub or shower.

*Excludes products such as Shower Curtains, Shower Enclosures and fixed Bathtub/Shower Wall Panels.*

**Type of Bathtub/Shower Door (20002440)**

**Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of bathtub or shower door.

**Attribute Values**

## **Brick 10002590: Bathtub/Shower Modules**

### **Definition**

Includes any products that can be described/observed as a self-contained one-piece installation that comprises of both a bathtub and shower facilities.

**Specifically** *excludes bathtubs/shower modules with integrated water jets.*

*Excludes products such as bathtubs and showers sold individually and Shower Spas.*

**Brick 10004029:**  
**Bathtub/Shower Modules – Jetted**

**Definition**

Includes any products that can be described/observed as a self contained one-piece installation that comprises of both a bathtub and shower facilities. These products are fitted with small openings from which powered streams of water are emitted to produce a massaging effect on the body.

**Specifically** *excludes bathtubs/shower modules with no integrated water jets.*

*Excludes products such as bathtubs and showers sold individually and Shower Spas.*

## **Brick 10002596:**

### **Bathtubs – Jetted (Hot Tubs/Spas)**

#### **Definition**

Includes any products that can be described/observed as a large open container that is used for bathing and massaging. These products are fitted with small openings from which powered streams of water are emitted to produce a massaging effect on the body. Typically these products have one or more faucets/taps that are attached in order to fill it with water, and a hole in the bottom through which used or grey water is expelled once it is no longer required. These bathtubs and spas are large enough that one or more adult persons can get into it and submerge themselves in the water.

Includes products such as outdoor hot tubs.

*Specifically excludes bathtubs with no integrated water jets.*

*Excludes products such as Basins/Sinks and Bathtub/Shower Modules.*

#### **Indoor/Outdoor Use (20000430)**

## Urinals

### Definition

Includes any products that can be described/observed as a plumbing fixture that has been specifically designed for urination, and typically by a standing male. These products may be designed for use by one or more people, and are typically a wall-mounted bowl. They may or may not have a flushing system to rinse the urine from the bowl.

*Excludes products such as Toilets, Bidets, Macerators and Toilet/Urinal Cisterns.*

### If Flushable (20002438)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether or not the product can be flushed/rinsed out with water to remove its contents.

#### Attribute Values

NO (30002960)	UNCLASSIFIED (30002515)	YES (30002654)
---------------	-------------------------	----------------

### Type of Mounting (20002115)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the method used to support the product.

#### Attribute Values

FLOOR MOUNTED (FIXED) (30010728)	UNCLASSIFIED (30002515) UNIDENTIFIED (30002518)	WALL MOUNTED (FIXED) (30009774)
-------------------------------------	--	------------------------------------

## Brick 10002611:

### Macerators

#### Definition

Includes any products that can be described/observed as a device installed in a drain line from a toilet or kitchen sink, which utilises a pump to grind waste and dispatch it safely into the sewer system.

*Excludes products such as septic tanks.*

#### Target Use/Application (20001709)

##### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the target use and/or application.

##### Attribute Values

ATTIC/LOFT (30012549)

BASEMENT (30012550)

BATHROOM (30003674)

CARAVAN (30012551)

(30012548)

UNIDENTIFIED (30002518)

## **Brick 10003565:**

### **Plungers**

#### **Definition**

Includes any products that can be described/observed as a rubber suction cup on a handle used to free plumbing traps and waste outlets of obstructions.

*Excludes products such as drain augers.*

## **Brick 10004049: Septic Tanks**

### **Definition**

Includes any products that can be described/observed as a sealed tank for the reception and temporary storage of sewage where access to the sewer network is extremely limited. Installation is normally governed by building regulations.

Includes products that cater for single dwellings of up to six people as well as products that cater for dwellings of up to fifty people.

*Excludes products such as macerators and waste traps.*

## Brick 10005480:

### Waste Traps

#### Definition

Includes any products that can be described/observed as a device that either prevents sewer gasses and odours from entering the house, or prevents waste such as grease and kitchen solids from entering the sewage system.

Includes products such as sink traps, grease traps, shower traps and bath plumbing wastes.

*Excludes products such as plumbing pipes and septic tanks.*

#### Type of Waste Trap (20002488)

##### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of waste trap.

##### Attribute Values

BATH PLUMBING WASTE  
(30012544)

GREASE TRAP (30012542)

## Brick 10004006: De-scalers (DIY)

### Definition

Includes any products that can be described/observed as a high strength/concentrated preparation, specifically designed for DIY use, to remove lime scale deposits caused by hard water. Typically these products are used to de-scale pipes and water storage/heating systems.

**Specifically** *excludes products designed for general household areas and appliances (such as Kettles, Steam Irons, Baths, Shower Jets and Taps).*

*Excludes products such as Water Softeners, Water Filters, Household Cleaners and Water Treatment Kits.*

### Formation (20000352)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the state in which the product is sold.

#### Attribute Values

GEL (30003945)

LIQUID (30001448)

POWDER (30001909)

UNCLASSIFIED (30002515)

UNIDENTIFIED (30002518)

## Brick 10002649: Scale Inhibitors

### Definition

Includes any products that can be described/observed as a device that is connected to a water supply pipe to specifically inhibit/prevent scale, either temporarily or permanently. By altering the structure or characteristics of the scale particles these devices prevent them from adhering or being deposited on plumbing fixtures, pipe work or heat exchangers. These products are either integrated as part of the pipe system or attached externally.

Includes products such as magnetic scale inhibitors and electrical scale inhibitors.

*Specifically excludes de-scalers which remove scale once it has been deposited.*

*Excludes products such as Water Filters, Water Softeners and Water Treatments.*

### Type of Scale Inhibitor (20002473)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify method which is used to inhibit the formation of scale.

#### Attribute Values

# Brick 10004016: Water Filtration Machines/Systems

## Definition

Includes any products than can be described/observed as a machine/system, which is fixed in place to filter water from a connected water supply. The water is passed through one or more filters within the machine/system to remove impurities such as, metals, water sediment, chlorine, herbicides and pesticides.

Includes products that use ultraviolet (UV) and reverse osmosis filters.

*Specifically excludes portable water filtering jugs/vessels.*

*Excludes products such as Water Filter Cartridges, Water Softeners, Water Treatment Kits, Water Filtration Supplies, De-scalers and Scale Inhibitors.*

## Type of Water Filter (20002472)

### Attribute Definition

Indicate, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of water filter.

### Attribute Values

## **Brick 10004012: Water Meters**

### **Definition**

Includes any products than can be described/observed as a device, which measure the volume of water that a household takes from a main supply to be used in the home.

Includes products with a digital display to show the volume of water used.

*Excludes products such as Water Storage Tanks.*

### **Analog/Digital (20001145)**

#### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is analog or digital.

#### **Attribute Values**

ANALOG (30007712)

DIGITAL (30005480)

UNIDENTIFIED (30002518)

## **Brick 10004008: Water Softeners (DIY)**

### **Definition**

Includes any products than can be described/observed as a device which is fixed in place to soften water from a connected water supply. These devices soften the water by reducing the calcium or magnesium ion concentration in hard water. The water is passed through an ion-exchange resin in which the ions causing the hardness trade places with sodium ions, these are then released into the water making it much softer.

**Specifically** *excludes household preparations that are used to soften hard water.*

*Excludes products such as Water Filtration Machines, De-Scalers and Water Treatment Kits.*

## Brick 10002650:

### Water Storage/Treatment – Accessories/Replacement Parts

#### Definition

Includes any products that can be described/observed as an accessory/replacement part for Water Storage/Treatment products.

Includes products such as replacement lid–seals, tank fittings and replacement water filters.

*Excludes products such as complete Water Storage/Treatment products.*

#### Type of Accessory/Replacement Part (20002150)

##### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of accessory or replacement part.

##### Attribute Values

## **Brick 10002652: Water Storage/Treatment Variety Packs**

### **Definition**

Includes any products that can be described/observed as two or more distinct Water Storage/Treatment products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Water Storage/Treatment class.

Includes products such as water tanks sold with water filters.

Items that are received free with purchases should be removed from the classification decision-making process.

*Excludes products such as Water Tanks sold with Piping and Scale Inhibitors sold with Plumbing Fittings.*

## Brick 10002646:

### Water Tanks

#### Definition

Includes any products that can be described/observed as a large storage container that is fixed in place, for holding fresh water before use in the home. Typically these products can be found in the attic of a house.

**Specifically excludes** garden water storage tanks that are used to collect and store rainwater for use only on the garden such as watering plants.

*Excludes products such as Boilers, Immersion Heaters and Water Tank Fittings.*

#### Indoor/Outdoor Use (20000430)

##### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product is used indoors or outdoors.

##### Attribute Values

INDOOR (30005019)

OUTDOOR (30005020)

## Brick 10002648: Water Treatments (DIY)

### Definition

Includes any products that can be described/observed as chemical preparation that is used to specifically treat a household water supply from contaminants.

Includes products such as pH conditioners, biocides and antifoamers and defoamers.

*Specifically excludes all water purification treatments used when camping.*

*Excludes products such as Water Tests Kits that only show the presence of a Contaminate, Water Softeners, Scale Inhibitors, De-scalers and Water Filtration Machines/Systems.*

### Type of Water Treatment (20002476)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of water treatment.

#### Attribute Values

**Brick 10004022:**  
**Connectors – Water**

**Definition**

Includes any products that can be described/observed as a length of hollowing tubing that has been specifically designed with connectors at each end in order to join plumbing fixtures such as gas heaters, faucets/taps or shower devices to the domestic water supply system. Once joined to the water supply system, water can then flow through the connector into the attached fixture. These products can also be used as a method of extending existing pipes in the water system.

*Excludes products such as Water Pipes/Tubing, Water Pumps, Water Valves/Fittings and Pump Accessories.*

**Type of Material (20000794)**

**Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of material from which the product is made.

**Attribute Values**

# Brick 10005867:

## Pipe Flanges

### Definition

Includes any product that can be described/observed as an external or internal rib or rim, used to connect to another pipe or flange; to close a pipe; to add strength to a pipe or to hold a pipe in place.

Includes products such as closet flanges, orifice flanges, long weldnecks and reducing flanges.

*Excludes products such as water connectors.*

### Raised/Flat (20002733)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is raised from the surface or flat.

#### Attribute Values

FLAT/RING TYPE JOINT (RTJ) (30014602)	RAISED (30014601)
	UNIDENTIFIED (30002518)

### Type of Pipe Flange (20002732)

#### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of pipe flange.

#### Attribute Values

## **Brick 10004055:**

### **Pumps (Water Supply)**

#### **Definition**

Includes any products that can be described/observed as a pump that has been specifically designed for the raising, compressing and/or transferring of domestic water.

*Specifically excludes garden water pumps.*

*Excludes products such as Fuel and Oil Pumps and All Pumps not specifically designed for use with Water.*

# Brick 10004024: Valves/Fittings – Water

## Definition

Includes any products that can be described/observed as a valve or fitting that regulates the flow of water by opening, closing or partially obstructing the passageway within a domestic water supply system.

*Specifically excludes Faucet/Tap and Shower Valves.*

*Excludes products such as Water Pumps, Water Connectors, Pipe Accessories, Water Pipes and Tubing.*

## Type of Valve (20002487)

### Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of valve.

## **Brick 10004057:**

### **Water Pipes – Accessories/Replacement Parts**

#### **Definition**

Includes any products that can be described/observed as an accessory/replacement part for Water Supply products.

Includes products such as pipe hangers and clips.

*Excludes products such Water Valves, Water Pipes/Tubing, Water Connectors and Water Pumps.*

#### **Type of Accessory/Replacement Part (20002150)**

##### **Attribute Definition**

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of accessory or replacement part.

##### **Attribute Values**
