

Brick 10001379: Communication Accessories Other

Definition

Includes any products that may be described/observed as Communication Accessories products, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Communication Accessories products.

Brick 10001380: Communication Accessories Variety Packs

Definition

Includes any products that may be described/observed as two or more distinct Communications Accessory products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Communication Accessories class.

Includes products such as a Hands-Free Set sold with a Mobile Phone Radiation Guard.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as a Mobile Phone sold with a Hands-Free Set.

Brick 10005745: Communication Headphones Replacement Parts/Accessories

Definition

Includes any products that may be described/observed as a replacement part or accessory for communication headphones that incorporate equipment such as earphones and a microphone.

Includes products such as ear pads and headbands.

Excludes products such as Phone Holders.

Type of Communication Headphones Replacement Part/Accessory (20002647)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of communication headphone replacement part or accessory.

Attribute Values

EARPAD (30013413) HEADBAND (30004050) UNCLASSIFIED (30002515) UNIDENTIFIED (30002518)

Brick 10001181: Communications Hands Free Kits/Headphones

Definition

Includes any products that may be described/observed as a piece of equipment designed to allow an individual to use a phone or other audio communication device without having to hold it to the ear, either by using a stand-alone microphone or a microphone incorporated into headphones.

Includes products such as mobile phone hands free kits.

Specifically excludes audio headsets used only for listening, not for two-way communication.

Excludes products such as car phone holders.

Corded/Cordless (20001116)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is connected to a base unit or power supply by a cord.

Attribute Values

CORDED (30007714)

CORDLESS (30007715)

UNIDENTIFIED (30002518)

Brick 10005740:

Digital Enhanced Cordless Telecommunications (DECT) Repeaters

Definition

Includes any products that can be described/observed as a device that can double the range of a digital DECT cordless phone. These devices are extremely useful for those users who have larger dwellings or particularly thick walls.

Excludes products such as audio amplifiers.

Brick 10001178: Mobile Phone Cases

Definition

Includes any products that may be described/observed as casing designed to cover and protect mobile phones.

Specifically *excludes Mobile Phone Fascias*.

Excludes products such as Casing not specifically designed for mobile phones and Mobile Phone Holders.

Type of Material (20000794)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of material from which the product is made.

Attribute Values

LEATHER (30004006)	PLASTIC/SYNTHETIC (30007497)	RUBBER (30004201) TEXTILE (30004299)	UNCLASSIFIED (30002515) UNIDENTIFIED (30002518)
--------------------	------------------------------	---	--

Brick 10001182: Mobile Phone Fascias

Definition

Includes any products that may be described/observed as a detachable cover or casing specifically designed for mobile phones and are sold independently from the mobile phones.

Excludes products such as Fascias sold already attached to Mobile Phones and Communication Equipment Cases.

Brick 10001183: Mobile Phone Radiation Guards

Definition

Includes any products that may be described/observed as a device specifically designed to significantly reduce the exposure a user has to radiation that may be emitted or received by a mobile phone.

Excludes products such as Computer Radiation Guards.

If With Wave Filter (20001107)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product contains a wave filter.

Attribute Values

NO (30002960)

UNIDENTIFIED (30002518)

YES (30002654)

Brick 10001177: Phone Holders

Definition

Includes any products that may be described/observed as a device intended to hold a mobile phone in place.

Includes products such as car phone holders and mobile phone belt clips.

Excludes products such as Mobile Phone Cases and Mobile Phone Fascias.

Type of Phone Holder (20002570)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of phone holder.

Attribute Values

CAR PHONE HOLDER (30012958)	DESKTOP MOBILE PHONE HOLDER (30012960)	MOBILE PHONE BELT CLIP (30012959)	UNCLASSIFIED (30002515) UNIDENTIFIED (30002518)
--------------------------------	---	--------------------------------------	--

Brick 10005680: Telephone Wipes

Definition

Includes any products that can be described/observed as a wipe specifically designed to clean fixed and mobile phones.

Includes products dispensed from tubs or sachets and may contain bactericide to kill common germs.

Excludes products such as computer cleaning wipes, audio–visual cleaning wipes and general purpose household cleaning wipes.

Brick 10001382: Communication Variety Packs

Definition

Includes any products that can be described/observed as two or more distinct Communications products sold together which exist within the schema but belong to different classes, that is two or more products contained within the same pack which cross classes within the Communications family.

Includes products such as a Mobile Phone sold with a Hands-Free Kit.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as products from the Communications Segment sold with products from another Segment.

Brick 10001184: Answering Machines

Definition

Includes any products that may be described/observed as a fixed electronic device that, in the absence of the called party, automatically answers incoming calls with a pre-recorded message and records messages from callers for later playback.

Includes products such as digital answering machines and tape answering machines.

Excludes products such as multifunctional devices that include an answering machine and which are classified with office machinery, as well as telephones and telephones with an inbuilt answering machine.

Analog/Digital (20001145)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is analog or digital.

Attribute Values

ANALOG (30007712)

DIGITAL (30005480)

UNIDENTIFIED (30002518)

Brick 10001185: Conferencing Systems

Definition

Includes any products that may be described/observed as the means by which phones are connected to allow people in different locations to speak to and be heard by one another simultaneously. These systems may also incorporate a small visual screen.

Excludes products such as Intercoms.

Communication Format (20001109)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of communication format.

Attribute Values

AUDIO (30007795) AUDIO VISUAL (30007796) UNCLASSIFIED (30002515) UNIDENTIFIED (30002518)

Brick 10005677: Fax Machine Consumables

Definition

Includes any products that can be described/observed as being specifically designed to periodically replace/refill components of a fax machine that have been depleted or worn out by use, such as ink films.

The products include Drum Cartridges, Film Cartridges and kits which contain multiple replacement items such as toner, drum, and imaging unit.

Excludes products such as Fax Machines, Printer and Type Writer Consumables.

Type of Office Machinery Consumable (20001077)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of office machinery consumable.

Attribute Values

Brick 10005681: Fixed Communication Devices Accessories

Definition

Includes any products that can be described/observed as an accessory to a fixed communication device that is not incorporated into the main communication device selling unit but is sold separately.

Includes products such as telephone bell ringers to enable one to hear a telephone in another room and line sharing devices for telephones.

Excludes products such as fax machine consumables that need to be replaced on a periodic basis.

Brick 10001383:
Fixed Communication Devices Other

Definition

Includes any products that may be described/observed as a Fixed Communication Device, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Fixed Communication Devices.

Brick 10001384: Fixed Communication Devices Variety Packs

Definition

Includes any products that may be described/observed as two or more distinct Fixed Communication Device products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Fixed Communication Devices class.

Includes products such as a Telephone sold with a separate Answering Machine.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as a Telephone sold with a Caller ID Display.

Brick 10001188:
Fixed Communication Pre-pay Vouchers/Calling Cards

Definition

Includes any products that can be described/observed as a card/voucher that is purchased from a retailer, which allows the purchaser to make phone calls from fixed communication devices up to the value of the card or voucher.

Excludes products such as Mobile Phone Pre-Pay Vouchers/Cards.

Type of Fixed Communication Pre-pay Voucher/Calling Card (20001112)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of fixed communication device pre-pay voucher or calling card.

Attribute Values

GPS Equipment – Mobile Communications

Definition

Includes any products that may be described/observed as any of the hardware used in the Global Positioning System, which uses satellites, receivers and software to allow users to determine their exact geographic position.

Excludes products such as GPS Software, automotive GPS navigational systems and Mobile Phones with Integrated GPS.

If With Emergency Call Device (20001119)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product includes emergency call devices.

Attribute Values

NO (30002960) UNIDENTIFIED (30002518) YES (30002654)

Brick 10001194:

GPS Software – Mobile Communications

Definition

Includes any products that may be described/observed as any of the programmes or data used in the Global Positioning System, which uses satellites, receivers and software to allow users to determine their exact geographic position. Includes GPS software and maps for marine, auto or a personal GPS device.

Excludes products such as GPS Equipment. Also excludes products such as GPS Equipment and GPS software / maps that do not come on CD or other pre-recorded device such as downloadable content.

Brick 10006237:

GPS Software – Mobile Communications – Digital

Definition

Includes any products that may be described / observed as any of the programmes or data which are downloaded or streamed, used in a Global Positioning System device, which uses satellites, receivers and software to allow users to determine their exact geographic position. Includes GPS software and maps for marine, auto or a personal GPS device.

Excludes products such as GPS Equipment and GPS software / maps that come on CD or other pre-recorded device.

Brick 10003779:
Mobile Communication Devices/Services – Replacement Parts

Definition

Includes any products that may be described/observed as replacement parts for Mobile Communication Devices and Services products.

Includes products such replacement Keypads and LCD Displays for mobile phones.

Specifically *excludes Mobile Phone Fascias.*

Excludes products such as Mobile Phone Software and Radiation Guards, and Communication Cases.

Type of Replacement Part (20000975)

Attribute Definition

Indicates with reference to the product branding, labelling or packaging, the descriptive term that is used by the manufacturer to identify the type of replacement part.

Brick 10001385:
Mobile Communication Devices/Services Other

Definition

Includes any products that may be described/observed as Mobile Communication Devices and Services products, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Mobile Communication Devices and Services products.

Brick 10001386:

Mobile Communication Devices/Services Variety Packs

Definition

Includes any products that may be described/observed as two or more distinct Mobile Communication Devices and Services products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Mobile Communication Devices and Services class.

Includes products such as Mobile Phones and SIM Cards sold together.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as Mobile Phones and Hands-Free Kits sold together.

Brick 10001195: Mobile Phone Pre-pay Vouchers/Cards

Definition

Includes any products that may be described/observed as a voucher/card, which is purchased from a retailer and then credited to the purchaser's mobile phone account.

Includes products such as mobile phone Top-Up Cards.

Excludes products such as Gift Vouchers and Pre Pay Cards for other Non-Mobile Phone uses.

Brick 10001196:

Mobile Phone SIM Cards/SIM Card Adapters

Definition

Includes any products that may be described/observed as a subscriber identity module (SIM) on a removable card that can be inserted in any GSM-based mobile phone, which securely stores the service-subscriber key (IMSI) used to identify a subscriber on mobile telephony devices (such as computers and mobile phones). The small printed circuit board , also contains memory for a personal directory of numbers. A SIM card adapter combines SIM cards from different areas, countries or different network numbers in just one SIM card.

Excludes products such as Mobile Phone Software.

Type of SIM Card/Adapter (20001123)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of mobile phone SIM card or adapter.

Brick 10001197: Mobile Phone Software

Definition

Includes any products that may be described/observed as a set of programmes or data specifically designed to operate a mobile phone.

Includes products such as web-surfer software, stock market and broadcast software, games and ring-tone software.

Excludes products such as SIM Cards, Computer Software and GPS Software. Excludes are products that are downloaded or streamed to customer.

Brick 10006238:

Mobile Phone Software – Digital

Definition

Includes any products that may be described/observed as a set of programmes or data specifically designed to operate a mobile phone which are downloaded or streamed to the phone. Includes products such as web-surfer software, stock market and broadcast software, games and ring-tone software.

Excludes products such as SIM Cards, Computer Software and GPS Software.

Brick 10001198: Mobile Phones/Smartphones

Definition

Includes any products that may be described/observed as a handheld cordless device that converts sound into electrical signals to be transmitted over distances and then converts received signals back into sounds. These devices do not need to be attached to a phone connection point.

Includes mobile phones with features such as colour screens, video messaging, photo messaging, dual band and tri band as well as smartphones that can offer advanced functionalities such as email and a personal organiser.

Excludes products such as cordless telephones and pagers.

If Colour Screen (20001126)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify if the product includes a colour screen.

Attribute Values

NO (30002960) UNIDENTIFIED (30002518) YES (30002654)

If MP3 Player (20002033)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product has MP3 playing facility.

Attribute Values

NO (30002960) UNIDENTIFIED (30002518) YES (30002654)

Brick 10006225: Signs, Combination

Definition

Includes any products that can be described/observed as a sign which has some preprinted elements, but also has an unprinted or blank area for the user to provide information, instructions, or decorative content. Images or wording can be added to the sign to convey a message. The sign has a section with a preprinted image or wording to help convey the message. They may also be powered to provide lighting, such as back lighting or neon.

Excludes products such as Preprinted Signs, Unprinted Signs.

If Powered (20002241)

Attribute Definition

Indicate, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product is powered by electricity.

Attribute Values

NO (30002960) UNIDENTIFIED (30002518) YES (30002654)

Lettering (20002825)

Attribute Definition

The style or form of lettering or wording which is used present with the product. This lettering can be attached to the sign to provide information to readers of the sign.
