

Brick 10002227: Bed Sheets/Valances

Definition

Includes any products that can be described/observed as a rectangular piece of fabric placed on a bed. A bed sheet is used to lie on or lie under. A bed valance covers the sides of the mattress, enhancing the bed décor as well as protecting the mattress and can also be used to lie upon.

Includes products such as a Fitted Sheet, Flat Sheet or Valance Sheet.

Excludes products such as Mattress Protectors and all other classified Bedding.

Type of Bed Sheet/Valance (20001759)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of sheet or valance.

Attribute Values

FITTED SHEET (30009878)	UNCLASSIFIED (30002515)	VALANCE SHEET (30009880)
FLAT SHEET (30009879)	UNIDENTIFIED (30002518)	

Brick 10002230: Bedding Other

Definition

Includes any products that can be described/observed as a bedding item, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Bedding products.

Brick 10002229: Bedding Variety Packs

Definition

Includes any products that can be described/observed as two or more bedding items sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Bedding class.

Includes products such as Duvet Covers and Pillow Cases sold together.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as Bedding and Curtains variety packs.

Brick 10005197: Blankets (Powered)

Definition

Includes any products that can be described/observed as a rectangular piece of woven material used as a covering for a bed or mattress, which has an electrical element that is governed by a thermostat. Some electric blankets have switches that control the heat in particular sections of the blanket to suit the requirements of the sleeper/sleepers. When the element is switched on, the blanket warms to the desired temperature on the desired area of the bed.

Excludes products such as non-powered blankets, duvets, quilts and throws.

If With Multi-control Switch (20002189)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify whether the product comes with a multi-control switch.

Attribute Values

NO (30002960)

UNIDENTIFIED (30002518)

Brick 10002212: Household Beds/Mattresses Other

Definition

Includes any products that can be described/observed as a household furniture item designed as a bed or a mattress, where the user of the schema is not able to classify the products in existing bricks within the schema.

Excludes all currently classified Beds and Mattresses, Sofa Beds, Camping Beds and Sleeping Bags.

Brick 10002213: Household Beds/Mattresses Variety Packs

Definition

Includes any products than can be described/observed as two or more distinct household beds and/or mattresses products sold together, which exist within the schema belonging to different bricks but to the same class, that is two or more products contained within the same pack which cross bricks within the Household Beds and Mattresses class.

Includes products such as a Bed Frame and Mattress sold together.

Items that are received free with purchases should be removed from the classification decision-making process.

Excludes products such as Mattress and Bedding variety packs.

Brick 10002210: Household Mattresses

Definition

Includes any products that can be described/observed as a usually rectangular pad of heavy cloth, filled with soft material or an arrangement of coiled springs and used to sleep upon in the home. These products may either be used on their own or placed upon a bed frame.

Specifically *excludes* *Sleeping Bags*.

Excludes products such as Inflatable Mattresses, Waterbeds, Bed Frames, Beanbags, Sofa Beds and Camping Sleeping Mats.

Type of Mattress (20001741)

Attribute Definition

Indicates, with reference to the product branding, labelling or packaging, the descriptive term that is used by the product manufacturer to identify the type of mattress.
